

HOW TO ENTER A HOST CODE

The screenshot shows the Stampin' Up! online store interface. At the top, there is a teal header with 'AUSTRALIA' and 'SS Shopping With: SUZIE STAMPER'. Below this is a navigation bar with 'MENU', 'NEW', 'SPECIALS', and 'JOIN'. The main content area is divided into a 'SHOPPING CART' section on the left and an 'ORDER SUMMARY' section on the right. The shopping cart contains one item: '150673 MINI STAMPIN' CUT & EMBOSS MACHINE' priced at \$110.00. The order summary shows a merchandise subtotal of \$110.00 and a final subtotal of \$110.00. A 'HOST CODE (OPTIONAL)' section is visible, with an input field for 'Enter Code' and an 'APPLY' button. A 'CHECKOUT' button is located at the bottom right of the order summary.

1. To use a host code, orders must be placed through the online store. Check that your demonstrator's name is in the upper left corner to ensure your order is placed with them.
2. To begin shopping, log in or create your own personal account.
3. Add products to the shopping cart.
4. AT ANYTIME BEFORE CHECKING OUT . . . Enter and apply the HOST CODE you received from your demonstrator.
 - Click "ADD HOST CODE" to expand the box so the code can be entered.
5. Don't forget to click the "APPLY" button once the host code has been entered - the code will not be entered unless APPLY is clicked.
6. Complete shopping then CHECKOUT to enter shipping and payment information.
