### How to....

1. Cut and score all cardstock.
2. Greenery Lane Washi
  - Layer a length of washi tape over the vellum, gently pressing it down as you go.
  - Use an old credit card or scrapping tool to press out any bubbles or creases.
  - Die cut the leaves you wish to use or die cut them all to have ready to use.
3. With Beautiful Pattern Embossing Folder emboss the Basic White card front.
4. Sentiment Panel: Stamping with Stampin' Positioner (this can also be done using blocks)
  - Group the 4 outline stamps together on the large plate to create a cluster and stamped in Basic Beige onto the Sentiment panel.
  - NB: on video I used ¼ sheet cardstock and stamped at the same time the large leaf stamp. But later decided not to use.
  - Using smaller plate stamped the sentiment with Lost Lagoon Ink over the top of the leaf cluster.
5. Die cut the Sentiment out with the 5<sup>th</sup> die (large – Small) app size 4.4 x 8.2cm (1¾ x 3¼)
6. Die cut Leaf in Basic Beige Cardstock
7. Card Front
  - Adhere the embossing Basic White cardstock to card base.
  - Add strip of DSP just off centre to the righthand side.
  - Add dimensionals to the sentiment panel and attach to the left upper section of the card front, overlapping the DSP slightly.
  - Layer the washi tape leaves & die cut leaf together, adhere with glue dots to card front.
  - Tie a bow in Linen thread & attach with a glue dot.
  - Add 3 clusters of the Pressed Flower Motifs
8. Card Insert
  - Adhere the Basic White panel to the DSP insert &
  - Add two washi tape leaves together with glue dots to finish the inside of your card.
