Inks/Blends

Barely Blush, Crisp Cantaloupe, Hydrangea Hue, Golden Glow, Peaceful Pine, Memento Tuxedo Black Ink

Embellishments

Adhesive-Backed Metallic Gems

Flowers x 2	DSP	fussy cut images
-------------	-----	------------------

How to....

- Cut and score all cardstock.
- Choose 1 or 2 flower images from the Artisan Sketched Garden DSP and fussy cut.
- Using Blender Pen and Inks, colour the floral images. Don't over work the images when colouring as the paper may breakdown & pill.
- Die cut two Vellum leaves using the large leaf die from Nature's Symphony Dies.
- Stamp sentiment using Memento Tuxedo Black Ink to the left of strip. Flag the banner on the right side.
- Card Front
 - Adhere the Stripe DSP to the right side on the Basic Black leaving a 1.5mm around 3 sides.
 - Tear approx. a 3cm (1¼") strip down the right side of Barely Blush Two-Tone Cardstock.
 - Adhere the torn cardstock to the left side of the card front, overlapping the DSP on the right. Curl up the torn edge to give extra texture.
 - Adhere the matted card front to the card base.
 - Add dimensionals to the back of the coloured floral DSP pieces and adhere to the card front.
 - Break the vellum leaves up into two branches, adhere the branches under the floral sections.
- Adhere the sentiment across the flowers, may need to add a dimensional on the left side of the banner.
- Card Insert
 - Adhere the Basic White cardstock to the left side of the Barely Blush Two-Tone.
 - Add the DSP Stripe strip down the right side of the Basic White Insert.
 - Adhere the Card Insert into the card.
- Add 3 Adhesive-Backed Metallic Gems to the card front.
